## BACKGROUND AND EXPERIENCE

**ASD Sport Compass** is a non-profit entity (Sport Club), registered as an Italian Sport association and embraces interested, amateurs and professionals in and from various sports.

By adopting the Education Through Sport (ETS) methodology, ASD Sport Compass aims to promote social inclusion, healthy lifestyles, and sustainable awareness. The association facilitates access to and participation in land, sea, and air sports in the region, while also working towards establishing European partnerships and related project initiatives within these disciplines.

Stationed at the heart of the Mediterranean, the associations furthermore promotes forms of eco-friendly tourism with a light environmental footprint.

ASD Sport Compass functions also as a 'field lab' that has prioritized the development of a solid presence in project design within our areas of interest. We actively participate in many international projects within the Erasmus+ program. Our global connections allow us to build solid relationships and membership in well-established international networks.

As part of its mission, ASDSC is the proud owner of MINA, a 39-foot sailing yacht moored in the port of Alghero. ASDSC is dedicated to promoting awareness, team spirit, athletic and personal growth, and well-being. In short, it is committed to good seamanship, which includes a focus on marine flora and fauna and embracing a more challenging lifestyle in and around the sea.

**MISSION:** to promote and develop Amateur Sports Activities and Education & Inclusion through Sports, with a focus on sailing and outdoor sports.

### OBJECTIVES:

- Create a transformative environment where individuals can learn, grow, and thrive through their participation in sports.
- Recognise sports as a potent non-formal education tool that shapes character and instills invaluable life lessons.
- Provides individuals with opportunities to develop physical and mental skills, fostering personal growth, character building, and cultivating healthy lifestyles.
- Create a space that embraces social inclusion, environmental sustainability, and active citizenship while promoting European values and encouraging social entrepreneurship.

### CORE ACTIVITIES:

1. Promoting and developing amateur sport activities, especially those linked to sailing and nautical practices, but also airborne and outdoors sports. This includes spreading knowledge of marine flora and fauna, and fostering an active lifestyle that embraces the sea as a form of psycho-physical and moral education. The association also encourages eco-friendly tourism through wind-powered sailing.
2. Organizing educational and practical activities for sailing, sea sports, airborne and outdoors sports, including daily excursions and educational-creative cruises to enhance the qualifications of sport operators. They also distribute periodicals, books, leaflets, booklets, and manage websites.
3. Studying and developing new methodologies to improve the organization and practice of sports. This includes employing vessels through rental and leasing contracts, and managing activities related to building, recovery, setup, and technical and financial management.
4. Organizing recreational and cultural sporting events related to sailing, both in Italy and abroad. This includes Mediterranean and Oceanic sailing trips, courses, and educational stages, sometimes in cooperation with other entities.
5. Managing their own and third-party facilities, including maintaining sports facilities and equipment used in sailing and sea sports, as well as gyms and various sport facilities.
6. Forming sports teams for championships, competitions, regattas, and events related to sailing and other sports.
7. Offering introductory courses in sports, physical activity, and fitness, along with training and qualification courses for sport operators.
8. Organizing recreational and cultural activities to better utilize members' free time.
9. Facilitating training and team-building activities to create effective working groups.
10. Exploring opportunities for building and operating sport facilities, such as sea lanes, marinas, piers, mooring stations, and shelters for boats and vehicles.
11. Organizing competitions, championships, sporting events, and rallies, along with related services.

Please briefly present the partner organisation.

12. Promoting and implementing initiatives aimed at protecting coastal environments and managing reception points to support sports and nature conservation activities.
13. Organizing international initiatives through agreements with foreign bodies and associations.
14. Engaging in activities related to international mobility, research, and education across various forms, and supporting other institutions through counseling.
15. Raising awareness about environmental sustainability, social entrepreneurship, and using sports as educational tools.
16. Designing community projects and participating in European programs for education, social inclusion, and skill development through sports, while enhancing their visibility in Italy.
17. Establishing and managing scholarships and research grants.
18. Participating in international, national, regional, and local tenders and calls.
19. Formulating agreements with universities and other public and private training and research institutions.
20. Establishing specific agreements and memoranda of understanding with public and private entities.

What are the activities, affiliations, size of organization and experience in the areas relevant for this application?

The association is composed of a total 4 full-time staff members, expert in diverse fields as European/local project design, formal and non-formal education, education through sport, organization of events/seminars, marketing, sustainability, communication and dissemination. Several part time staff members, coaches and volunteers are involved in the Sport Club activities.

ASDSC is active in seeking membership in established international networks and it benefits from a wide network of contacts developed by its associates. These associates are professionals who have been, and continue to be, part of the international staff involved in Erasmus+ Collaborative Partnership Sport projects.

ASDSC, the owner of the 39-foot sailing yacht MINA moored in Alghero, is dedicated to promoting awareness, team spirit, athletic and personal growth, and well-being through a variety of activities. The association focuses on amateur sports, especially sailing and nautical practices, and encourages eco-friendly tourism. ASDSC organizes educational and practical activities, including daily excursions and creative cruises, to enhance participants' skills.

The association develops new methodologies for sports organization and practice, including the management of vessels. It hosts recreational and cultural sporting events both locally and internationally, and manages and maintains sports facilities and equipment. ASDSC forms and trains sports teams for competitions and events, and offers introductory courses in sports, fitness, and operator training. Additionally, ASDSC organizes recreational and cultural activities for its members, facilitates team-building and training activities, and develops and operates sport and nautical facilities. The association conducts competitions, championships, and rallies, and promotes environmental protection initiatives.

ASDSC engages in international cooperation through agreements with foreign bodies, supports international mobility, research, and education projects, and raises awareness about environmental sustainability and social entrepreneurship. It designs and participates in European and local educational programs, establishes scholarships and research grants, and participates in various tenders and calls. ASDSC also formulates agreements with educational and research institutions and establishes partnerships with public and private entities.

## PROJECTS

ASD has been establishing a solid presence in the field of project design within the association's areas of interest on national and international level; the association was granted a project proposal in the frame of the 2021 call of the local foundation "Fondazione Banco di Sardegna".

The proposal, titled "**Per un Mare di Inclusione**" (For a Sea of Inclusion), aimed to harness the inclusive potential of sailing by engaging groups of people with and without intellectual disabilities in joint sailing activities. Specifically, the "Per un Mare di Inclusione" project focused on promoting social inclusion through boating and sailing. The project had the objective to involve youngsters and promote their growth in a different environment: a sailboat where young people could learn and share the same rules and values.

The project brought people with and without intellectual disabilities together "in the same boat" to admire and at the same time experience the transformative power of sport.

In 2022, ASD Sport Compass was involved as partner in a successful Erasmus+ Big Collaborative Partnership, "Get into the Game", GITG. **Get In The Game** (GITG) aimed at raising awareness about sport opportunities for

young girls and to train teachers and coaches to provide more inclusive, egalitarian, and engaging sports activities. The project was a transnational cooperation effort including NGOs, Sport organizations, Schools and Federations established in national realities characterized by a peculiar yet interrelated condition in youth wellbeing and sports.

ASD was also a coordinator for the project “**Cineforum**,” a KA2 Adults initiative involving 4 partner organizations. By implementing the “Cineforum” project using non-formal education, we aim to raise awareness about various environmental (blue economy) and social topics through cinema and debate activities. The two main objectives of the project were to promote the benefits of film as a non-formal education tool among educators, thereby stimulating the critical thinking and initiative of adult learners, and to encourage adults to reflect on social issues, ultimately inspiring actions that benefit their communities.

In 2023, ASD was granted partnership in “**Sail4Sustainability**,” project based on ETS methodology and using sailing practice to promote sustainability and convey its values. It aims to empower young people to make sustainable choices and take action to protect the planet through sailing. By providing a safe and fun learning environment, the project will enhance the knowledge and skills of young people, helping them become responsible stewards of the environment. The project addresses priorities in sports, capacity building in youth, environment and climate change, inclusion and diversity, and combating social and geographic barriers.

In the same year, ASD has been granted for the first time in a KA1 project aimed to increase the staff’s competencies and experience through mobility (“**The Waves of Change**”) for improved mental health and addiction recovery within its community. The aim of this KA1 is to understand mental health and addiction recovery, develop practical skills for community programs, build international relationships

**DR. ROBERTO SOLINAS, PHD: PRESIDENT**

He is the President of Sport Compass Association. Holds a PhD in Theory and Methodology of Sport Science. 15 Publications in the Sport and Education. His experience in the professional use of the Education Trough Sport methodology (ETS) was developed in and sanctioned by his involvement in several international projects in Europe and at the international level.
